JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## RUSSIA.

## Plague and Typhus Fever—Examination of Emigrants.

The following information, dated February 9, was received from Minister Rockhill at St. Petersburg through the Department of State, February 28:

A communication from the foreign office states that from January 17 to 25, 13 cases of plague, with 11 deaths, occurred in the village of Naourzali-Tchagil, Kirghiz Steppe, government of Astrakhan, and that the first maritime district of the Kirghiz Steppe is infected.

Acting Assistant Surgeon De Forest at Libau reports, February 14: Week ended February 13. At Astrakhan, 1 case of plague with 3 deaths was reported. At Riga 197 cases of typhus fever were reported February 1 and 14 new cases February 11, with 207 cases under treatment in hospital. Precautions against spread of the disease are being strictly enforced.

For steamship *Estonia*, sailing for New York February 15, 714 emigrants have been examined and 120 pieces of baggage disinfected.
